RUSSIANS [illegible] ROOSEVELT'S ACT

Of Refusing to Allow Warships To Remain At Manila.

CLAIM HE'S PARTIAL TO JAPAN

Russian Press Declares That Their Country Is Now Helpless and Powerless, and of Course Their Ships Must Be Interned Till End of War.

St. Petersburg, June 8.—The Russian press, notably the Novoe Vremya and The Russ, the latter frequently reflecting the views of the foreign office, display a great deal of resentmen against the United States for enforcing the 24-hour rule in the case of the three Russian cruisers at Manila. The Russ quotes the American neutrality regulations and contends that President Roosevelt in applying the principle that only injuries received during storms, and not in battle, can be repaired in American ports, not only narrows the American regulations, but infringes recognized principles of international laws. This paper declares it has official warrant for the statement that representations have been made to Washington on the subject. The Novoe Vremya is exceedingly sarcastic. After a slap at Great Britain for the alleged manner in which her vessels dogged the Russian fleet from the time it left Cronstadt and for trying to force all the powers to accept her interpretation of the rules of neutrality the Novoe Vremya declares that President Roosevelt, whom it refers to as "Mr. Roosevelt," contaminated by England's example, arbitrarily interprets his own rules in a sense favorable to Japan, adding:

"Mr. Roosevelt takes full advantage of the fact that Russia is helpless and powerless to do more than protest. The Japanese minister is reported to have hastened to express his gratitude to America for this act of impartiality, which is partial to Japan. We trust Mr. Roosevelt is satisfied with his success."

The admiralty, it can be stated, is reconciled to the internment of the three Russian cruisers at Manila, but opposes, on principle, the rule that warships injured in battle cannot repair their machinery and boilers at neutral ports. The officials add that friction over this minor question would be exceedingly unfortunate just at the time that President Roosevelt is assuming the delicate role of trying to bring the belligerents together.

No More Fatalities Reported.

Manila, June 8.—No deaths have been reported among Russian officers or soldiers since the arrival here of the three cruisers commanded by Rear Admiral Enquist. Among those who had narrow escapes from death is Captain Nebolsin, commander of the Aurora, on which vessel Enquist hoisted his flag after the Oleg had been disabled. While Captain Nebolsin was in the conning tower a shell exploded there, but did not injure him. Later he left the bridge of the Aurora in charge of the first officer and went to the main deck in order to supervise the work of subduing the flames, the Aurora being on fire, and of caring for the wounded and killed. On his way to the main deck another shell exploded near Captain Nebolsin and fragments hit him, three in the head, one in the right leg and one in the right ankle. The captain was stunned for a few moments. He, however, quickly recovered and proceeded to look after the wounded. He then returned to the bridge and continued to command the Aurora without receiving any surgical aid. He never gave up the command of the vessel during any period of the fight, or while on his way here. Chief Surgeon Kostenko praises the captain highly for his courage and endurance.

[illegible] Stop British Vessel.

[illegible] June 7.—6 p. m.—The British steamer Cilurnam, chartered by the Russian Steamship company, [illegible], bound from Shanghai [illegible], was stopped on June 2 eighty miles from the bell buoy, off the entrance to Woo Sung, by the Russian transport Rion, boarding party, after the papers were examined, removed her hatches and threw overboard 411 bags of beans, 125 bales of cotton and 12 boxes of antimony.

The Russians left again suddenly, stating that the steamer was released. It is supposed that they received a wireless message regarding the approach of Japanese warships.

LONDON RECEIVES YOUNG KING.

Spain's Ruler Enjoying the Hospitality of Englishmen.

London, June 8.—King Alfonso today visited the city of London and enjoyed the hospitality of the lord mayor and corporation at the Guild hall. For the first time since his majesty's arrival in England the weather was sufficiently fine to enable him to appear in an open carriage, and for the first time anything in the nature of really large crowds gathered to welcome him.

The welcome to the young monarch was of the heartiest description. The route of the procession, which passed under a continuous archway of flags and flowers, was lined with troops. Halts were made at the boundaries of the drift boroughs to receive and answer the addresses of local authorities. At each of these points the decorations were of an especially elaborate character and the crowds were large. King Alfonso unrestrainedly showed his pleasure at the demonstrative greeting, which culminated in a scene of great enthusiasm as he entered the Guild hall. There were assembled a brilliant gathering of members of the royal family, cabinet ministers and naval, military and court officials. The city's address of welcome was presented to the king in a gold casket.

King Alfonso did not reply to the presentation address, which referred to the admiration which the citizens of London had for the art and literature of Spain, and the services of the country in the cause of civilization, and which recalled the commercial ties uniting the two countries.

VICTIM OF "WIRE-TAPPERS."

St. Louis Man Claims He Was Swindled Out of $7,000.

Chicago, June 8.—M. Cohen, a wealthy junk dealer of St. Louis, Mo., has reported to the Chicago police the loss of $7,000 by a "wire-tapping" swindle.

Cohen met five men in St. Louis and they unfolded to him an elaborate plan to beat the races which are in progress at the Latonia track. He came to Chicago with the men and they took him to a room in a building near Sixteenth street and Michigan avenue. There were intricate electrical machinery there and he thought the scheme was a good one. For three days he remained there with the party. During that time he advanced large sums of money, aggregating $7,000, and then one of the five men disappeared. There is no trace to the whereabouts of the swindlers.

Delcasse's Reason For Resigning.

New York, June 8.—According to the Paris correspondent of The Times, the chief cause for Foreign Minister Delcasse's resignation was not the state of Moroccan affairs, but his refusal to internationalize the Abyssinian railways. Both in France and England, the correspondent alleges, strong financial influences were brought to bear to render M. Delcasse's scheme in respect to the railways abortive. It is now expected, the dispatch adds, that the negotiations which have been proceeding with Rome and London on the subject of Abyssinia will now have a different issue than was at first expected.

Two-Masted Schooner Wrecked.

New York, June 8.—One life and possibly more is believed to have been lost at Sandy Hook today when an unidentified 2-masted schooner struck on Romer Shoal and was pounded to pieces by the heavy seas. The schooner is thought to have been a fisherman, which usually carries a big crew. Only one man was seen on the wreck after the schooner struck the shoal, however, and he disappeared when the vessel went to pieces.

OSCAR NO LONGER KING OF NORWAY

Storthing Declares Union of Countries Dissolved.

KING TELEGRAPHS HIS PROTEST

Declares Action Is Uncalled For and Desires a Decided Protest Made. Norwegians Say There Is No Feeling Whatever Against the King.

Christiana, Norway, June 8.—The storthing today declared the union between Norway and Sweden under one king to be dissolved and that the king has ceased to act as king of Norway. The storthing further empowered the present state council to act as a government of Norway until further notice and to exercise the power heretofore appertaining to the king.

An address to the king was adopted declaring that no ill feeling was entertained against him, his dynasty or

KING OSCAR.

the Swedish nation and asking him to co-operate in the selection of a young prince of the House of Bernadotte to occupy the throne of Norway.

The dissolution of the union between Sweden and Norway has been pending for some time and had its growth in the desire which grew stronger as time passed for the establishment of separate consular systems for the two countries.

King Oscar recently vetoed at Stockholm the measure presented to him by the council of state providing for separate consular representatives and the Norwegians maintained that the king by so doing and partly by his absence from Norway had suspended his rights and duties as king of Norway.

One of the causes of the desire in Sweden and Norway for separate consular systems was the fact that Sweden is protectionist and Norway is for free trade, and also because of Norway's more extensive sea trade and other divergencies of commercial interests.

At the opening of the session the government informed the storthing that it relinquished office from today. The storthing thereupon unanimously and without debate passed the following resolution:

"Whereas all the members of the council of state have laid down their offices, and

"Whereas his majesty, the king, has declared himself unable to establish a new government for the country, and

"Whereas the constitutional regal power thus becomes inoperative, the storthing authorizes the members of the council of state, who retired today, to exercise until further notice as the Norwegian government the power appertaining to the king in accordance with Norway's constitution and existing laws with those changes which are necessitated by the fact that the union with Sweden under one king is dissolved in consequence of the king having ceased to act as a Norwegian king.

Michaelsen, the retiring premier, accepted in behalf of the government the honorable and difficult task with which the storthing has entrusted it.

Five social delegates [illegible] from the address to the king. It is expected that the strothing will issue a proclamation to the Norwegian people regarding the dethronement of the monarch.

Telegram From the King.

Stockholm, Sweden, June 8.—King Oscar has sent a telegram to Premier Michaelson as follows:

"Have received the communication of the council of state.

"Record the most decided protest against the method and action of the government."

FOUR DOLLARS A SQUARE INCH

Fabulous Price Paid For New York City Property.

New York, June 8.—The sale to the Mercantile Trust company of St. Louis, just reported, of the famous plat of real estate at No. 1 Wall street, at the corner of Broadway, has given rise to interesting complications showing the great rise in property values in this city. At the figure named in the transaction, $700,000, the plot brought about $4 a square inch, possibly the highest price ever paid in the world's history. The property measures only 30 feet on the Broadway side, and has a frontage on Wall street of 39 feet 10 inches. It contains 1,170 square feet.

The next highest figure on real estate transactions in this city was that paid in 1872 by Anthony J. Drexel for the site of the Morgan banking house at Broad and Wall streets. This property, measuring 717 square feet, brought $348.67 a square foot. Said the attorney who conducted the Trust company's contracts:

"I have not the slightest doubt that I have secured for our clients the most valuable piece of real estate in the whole world. There is only one Broadway, only one Wall street and only one No. 1 Wall street on earth. It is likely the present lease will be allowed to run to a close. Then, of course, the property will be improved in a manner in keeping with the value and location."

TO RECEIVE PAUL JONES' BODY.

Squadron Waiting For Ships That Bear Remains of Famous Admiral.

New York, June 8.—The second squadron of the North Atlantic fleet, consisting of the armored cruiser Brooklyn and the protected cruisers Chattanooga, Galveston and Tacoma, selected by the navy department to escort the remains of John Paul Jones from France, will meet the vessels from Cherbourg Thursday. The remains will be transferred to the Brooklyn. Rear Admiral C. D. Sigsbee, who was in command, will board his flagship off Tompkinsville this afternoon. At the Brooklyn navyyard carpenters have been busily engaged on the flagship completing a platform which is called the "Mahogany Sarcophagus, meaning the mahogany casing that is to receive the leaden coffin containing the body of the commander of the Bon Homme Richard.

On the arrival at Cherbourg the Sheridan will be met by the warships that are to participate in the final tribute in French waters. Ten days after its arrival the remains will be taken to Annapolis.

Boys Cremated on Beach.

Atlantic City, N. J., June 8.—Two boys have met death by cremation on the beach here. They were Orjalon Ryan and William Jeffries, both of this city, aged 7 and 5 years, respectively. The boys had gone to a brush heap on the beach which were to be used to build a jetty. They dug a hole beneath the pile and crawled under. It is believed that they had matches for the brush was soon on fire, and before the boys could crawl out they were cremated. Their charred bodies were scarcely recognizable.

Judge Arrested for Selling Liquor.

Hartwell, Ga., June 8.—Judge Rowe and his wife were arrested upon accusations for liquor selling, drawn by Solicitor J. H. Skelton, and were placed in jail upon failure to give bond. There are eight accusations each against them and their bond was fixed at $1,600. The people of Hartwell are determined to break up notorious liquor places.

COMMITTEE GIVEN PLENARY POWERS

Looks Now Like Settlement of Strike Is In Sight.

ANOTHER CONFERENCE CALLED

Committee From Strikers Will Meet Employers and Try to Bring About Peace—Outcome of Meeting Will Be Watched With Much Interest.

Chicago, June 8.—Peace prospects in the teamsters' strike took a new lease of life today the teamsters' joint council having agreed to accept the employers' conditions for another conference.

The action was taken in the absence of President Shea. Levy Mayer, attorney for the merchants, was notified that a committee possessing plenary powers was ready to meet a similar committee of employers. It was believed the employers will consent to a conference, possibly today, on this basis.

President Walker G. Gibbons of the teamsters' council named the strikers' representatives. On the committee are members of every union now affected by the strike, including the express drivers.

The revival of peace hopes which was expected would postpone, for the time being at least, the impending crisis between the team owners and the truck drivers. The union had voted to reject the arbitration proposal of the owners.

While the action of the truck drivers was a shock to the team owners, it was not considered probable, in the light of other developments, that they would make a movement at once to lock out the 8,000 drivers in their employ.

Returns From Fruitless Search.

Nashville, Tenn., June 8.—F. H. Mays, a wealthy resident of Franklin, has returned from Arkansas and Indian Territory, after a fruitless search for his 17-year-old son, Miles F. H. Mays, who disappeared while in Nashville on September 10, 1904. At the time of his disappearance young Mays was traveling for a Chicago concern, and his accounts were found to be correct in every detail. After spending about $10,000 in searching for his son without obtaining the slightest clew, the elder Mays has arrived at the conclusion that the youth was murdered in a Nashville gambling house and his body thrown into the river or disposed of in some other way.

Large River Towboat Sinks.

Louisville, June 8.—After completing a journey of 1,800 miles without mishap the towboat W. W. O'Neill, one of the largest in the river service, struck an obstruction in the canal today and sank at the foot of Eighth street. Captain Carrollton and crew of 25 men escaped. The boat, which is the property of the Monongahela Consolidated Coal and Coke company, is worth $100,000 and was returning from New Orleans with a big tow of empty coal barges. It is believed the O'Neill can be raised. Navigation through the canal will not be interfered with.

Millers Meet at Kansas City.

Kansas City, June 8.—Millers from many parts of the United States were in attendance today at the opening session of the third annual convention of the Millers' National federation. One of the important questions that will come up before the convention finishes its work is the better protection in bills of lading forfeiture.

Poisoned Toys Cause Death.

Chicago, June 8.—A chemical analysis of toy beads obtained as a prize by a 5-year-old girl named Henrietta Cripp, revealed that the beads contained enough arsenic to cause death. The child died after having put the beads in her mouth. Coroner Hoffman says the use of toy beads as prizes to children is general. It is claimed that the beads are made in Germany.

BOND ORDINANCE PASSED COUNCIL

Almost Unanimous Was That Body for Its Passage.

FOR EDUCATIONAL PURPOSES

Qualified Voters of the City Will Determine Whether or Not Bonds Shall be Issued for $50,000—Election to be Held July 18th.

At an adjourned meeting of the City Council held Thursday night an ordinance was presented, the title of which was:

"An ordinance to provide for the calling of an election to determine whether or not bonds shall be issued by the city of Gainesville for educational purposes, and to provide for the issuance of said bonds."

This ordinance was framed in accordance with a law passed at the recent session of the Legislature empowering the city to issue bonds for educational purposes, with which our readers are familiar.

The ordinance was placed on its first, second and third readings and passed, the only dissenting vote against same being President Broome.

The ordinance directs the mayor to call an election on July 18 for the purpose of submitting the question to the qualified voters.

After a few minor transactions, the council adjourned.

THE NEWS FROM BRONSON.

Auction of Mules—The Delinquent Tax Sale—Approaching Marriages.

Bronson, June 8.—The public auction of sixty-three head of mules and three horses by Geo. W. Owens of Savannah, receiver for the Wylly-Gabbett Company, brought the largest crowd that has assembled in Bronson for years. In the lot were mules of all sizes, kinds and colors, and they went at prices to suit the pocketbook of the wealthy turpentine manufacturer as well as the poor farmer.

The highest price paid was $198, while the lowest bid was $8. The latter price was for a poor animal which should have been taken in charge by some society for the prevention of cruelty to animals and killed, but it fell into good hands and was led to a green pasture and will be treated by the best veterinary surgeon in the country. Some of the other mules bore evidence of bad treatment, probably from cruel drivers at the log camps.

It was 11 o'clock when Receiver Owens started the auction. It was intended to sell the whole lot at one time, but as the highest bid was only $4,500, it was decided to sell them separately. By this means the entire lot brought $6,182.80.

Not a great deal of interest was manifested at the delinquent tax sale yesterday, only a few being present to bid on the lands. The 42,000 acres of the Wylly-Gabbett Company as well as several thousand acres of the Cedar Key Town Company, which was advertised to sell, was paid on, which made the list small. A considerable amount of the land was marsh land of but little value.

One of the most popular young men in Levy county is to wed one of Alachua county's belles and one of Alachua county's most popular young men is to wed one of Levy county's belles.

The event will be on Wednesday, June 14th, when Mr. H. G. Rembert of Lennon will marry Miss Alma McCook of Gainesville, and on the same day Mr. A. L. King of Waldo will marry Miss Jenny White of Cedar Key. Mr. Rembert is one of the most successful young business men of the county. Miss McCook is a popular young lady who has a large circle of friends. Mr. King is an efficient employe of the S. A. L., being now conductor on this division of the system. Miss White is the youngest daughter of Col. and Mrs. W. R. White of Cedar Key and has a large number of friends.

F. G. Bunker, Fred Cubberly and J. B. Lutterloh, prominent citizens of Cedar Key, were at the county seat of Levy county on business yesterday.

Among the most prominent citizens of Montbrook in Bronson yesterday were ex-Senator N. A. Blitch, I. N. Rawls and J. S. Blitch.

J. B. Epperson, I. T. Fugate, J. M. Willis, Geo. W. Willis, A. J. Mixson and J. A. Hawkins, leading citizens of Williston, were in town yesterday.

Several teachers arrived yesterday to be present at the teachers' examination which begins today.

BUILT UP HER HEALTH

SPEEDY CURE OF MISS GOODE

She Is Made Well by Lydia E. Pinkham's Vegetable Compound, and Writes Gratefully to Mrs. Pinkham.

For the wonderful help that she has found Miss Cora Goode, 355 E. Chicago Avenue, Chicago, Ill., believes it her duty to write the following letter for publication, in order that other women afflicted in the same way may be

benefited as she was. Miss Goode is president of the Bryn Mawr Lawn Tennis Club of Chicago. She writes:

Dear Mrs. Pinkham:—

"I tried many different remedies to try to build up my system, which had become run down from loss of proper rest and unreasonable hours, but nothing seemed to help me. Mother is a great advocate of Lydia E. Pinkham's Vegetable Compound for female troubles, having used it herself some years ago with great success. So I began to take it, and in less than a month I was able to be out of bed and out of doors, and in three months I was entirely well. Really I have never felt so strong and well as I have since."

No other medicine has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound.

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhœa, falling, inflammation or ulceration of the uterus, ovarian troubles, faintness indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Her experience is very great, and she gives the benefit of it to all who stand in need of wise counsel. Address, Lynn, Mass.

SUNDAY SCHOOL PICNIC.

Mt. Moriah Colored Sunday School Will Go to Rocky Point.

Mt. Moriah Baptist Church, colored, of which Rev. H. M. Fleming is pastor, has arranged to give the members of the church and Sabbath school a day's outing at Rocky Point today, and a pleasant time is anticipated.

The party will leave via the Gainesville and Gulf railroad at 11:30 a. m., arriving at Rocky Point at 11:45. Returning, leave Rocky Point at 4:40 p. m., arriving here at 5 o'clock. The fare will be 20 cents for adults and 15 cents for children.

Rev. Fleming extends to everybody an invitation to come and bring well-filled baskets and enjoy the day. Good order is guaranteed.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

NEWS TERSELY TOLD.

The president today appointed James W. Taylor postmaster at Lafolette, Tenn.

General J. M. Palmer of this city and Andrew Carnegie have donated respectively $100,000 and $50,000 as a nucleus to the $500,000 endowment fund the Colorado college is raising.

The students of the Philippine Law school Narita have voted congratulations to the Japanese because of their victories, asserting that they established the prestige of the Orientals.

The United States steam dredge Caucas, which went ashore off the coast of Long Island Saturday night, has been refloated and apparently is undamaged. She will be sent to the navyyard for inspection.

D. O. Mills said today that he had tendered his resignation as director of the Equitable Life Assurance society. His reason, he said, was the apparent impossibility of harmonious action in the board of directors of the society.

EASTER CUSTOMS.

Curious Observances of the Past and Present In England.

Some of the old Easter customs in England are curiously barbaric, and even at the present time the observance of this particular festival is surrounded with more or less superstition, just enough to lend to it the charm of mystery.

Twentieth century maidens don bright yellow garters, secure in their belief that they will be engaged before the year ends. Others give their tresses "a hundred strokes three times" with the brush while thinking intently of their heart's desire. And who does not take good care to wear their new things on Easter day?

Among the earliest of Easter customs are the following:

At Queen's college, Oxford, a herring placed by the cook to simulate a man on horseback is set on a corn salad and brought to the table. This is supposed to represent a red herring riding away on horseback and is the last vestige of the once popular pageants of rejoicing for the end of the Lenten fast.

It was erstwhile a habit in English towns for the boys after the Easter service to run into the street and snatch the buckles from the shoes of the girls whom they were able to catch.

Easter Monday, however, it was turn about, and the women chased the men. If the men refused to pay a sixpence or happened to wear boots the women tried to snatch their hats, and to recover a hat cost a sixpence.

In some old towns great cakes were brought to church and there divided among the young people.

A singular Easter custom was that of "lifting and weaving." A man sitting contentedly in his home was surprised by the servants and women of his household, who entered bearing a great armchair lined with white and decorated with ribbons and favors. The man was forced to sit in the chair and be lifted by the women, to each of whom he must give a sixpence. On a day in Easter week, either Monday or Tuesday, the man lifted the women with similar attendant ceremonies.

Edward I. was lifted in his bed by his ladies and maids of honor, and a record shows the payment made by him to have been some $2,000 in sixpences.

In older days in England monks at Easter acted plays in churches, the favorite subject being the resurrection. Not only were these plays enacted in the churches on these festival days, but there was dancing, particularly in the French cathedrals.

Even the sun, it is said, dances on Easter day.

In Ireland great preparations were made for the last day of Lent. Holy Saturday, about 9 o'clock, a hen and a piece of bacon were put in the pot, and at 12 there were eating and much merrymaking. At 4 all rose to see the sun dance in honor of the resurrection.

Irrigation Is Ancient.

The practice of irrigation is very ancient, water having been stored and distributed in this way in Egypt as early as 2000 B. C. Persia, India, Ceylon, China, as well as Peru and Mexico, also had irrigation works ages ago. Even in Arizona remains of ancient irrigation works can be found, which suggest that that section of the desert may have been compelled by men to "blossom as the rose" many hundreds of years ago.

FULKS AS A FARMER.

Popular School Teacher Has Crops Which Will Make Big Yield.

Prof. J. H. Fulks, the erstwhile efficient and popular principal of the Gainesville Graded and High School, and who has been engaged in teaching in Alachua and other counties for several years, was a visitor to Gainesville Thursday.

Prof. Fulks has been for the past few days at Kanapaha, where he has a prolific farm. His crop is diversified, but among other products is a tract of ten acres of cantaloupes, from which the first shipment was made Thursday morning. The yield it is anticipated will be good, and the fruit is extra choice.

This progressive teacher-farmer left on the noon train for Center Hill, where he has another farm. He expects to ship a great many watermelons from his Center Hill farm, the first consignment going through today.

Notwithstanding the long and severe drouth which has prevailed at both Kanapaha and Center Hill, Prof. Fulks states that the crops are maturing nicely, and he expects to harvest abundant crops.

A DELIGHTFUL AFFAIR.

Kitchen Shower Tendered in Honor of Miss Alma McCook.

One of the most delightful as well as most successful functions of the season was the kitchen shower tendered by Prof. and Mrs. Tom F. McBeath, East Main street N., complimentary to Miss Alma McCook, who will be married on the morning of the 14th inst. to Mr. Haskell Green Rembert of Lennon.

A large number of friends of the young lady assembled to do honor and the presents were as abundant as they were useful, embracing almost every kitchen utensil imaginable.

The evening was delightfully spent by those who had the pleasant privilege to be present.

SOLID TRAIN OF MELONS.

Twenty-Two Carloads Passed Through Gainesville Bound North Thursday.

The heaviest melon train of the season passed through Gainesville Thursday morning over the Atlantic Coast Line from points south. This train was loaded exclusively with watermelons, and comprised twenty-two solid cars.

While the shipments were picked up as far south as Webster, the majority of the train was made up in the Ocala section. The melons were consigned principally to Eastern markets, and inasmuch as the season has just begun on watermelons, probabilities are that this shipment will bring fine prices.

Cures Old Sores.

Westmoreland, Kans., May 5, 1902. Ballard Snow Liniment Co.: Your Snow Liniment cured an old sore on the side of my chin that was supposed to be a cancer. The sore was stubborn and would not yield to treatment, until I tried Snow Liniment, which did the work in short order. My sister, Mrs. Sophia J. Carson, Allensville, Miffin Co., Pa., has a sore and mistrusts that it is a cancer. Please send her a 50c bottle. Sold by W. M. Johnson.

Summer Tourist Rates Via Atlantic Coast Line.

If you contemplate visiting summer resorts see ticket agents Atlantic Coast Line and get all information with reference to rates, routes, schedules and Pullman service. Summer tourist rates are now in effect to all the principal resorts throughout the country with return limit October 1st. Rates have been announced to all springs, mountain and seashore resorts. For the first time round-trip tickets are now on sale to resorts in New England territory.

Stimulation Without Irritation.

In case of stomach and liver trouble the proper treatment is to stimulate these organs without irritating them. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels without irritating these organs like pills or ordinary cathartics. It does not nauseate or gripe and is mild and pleasant to take. J. W. McCollum & Company.

SPECIAL RATE TO BUFFALO.

Via Seaboard Air Line Account Session of B. P. O. E.

The Seaboard Air Line Railway has been designated by the Florida Elks' Association as their official route from Florida to the Grand Lodge Session at Buffalo. It is the desire to operate a Florida Elks' special train to leave Tampa at 8 p. m. July 8th, and Jacksonville at 9 a. m. July 9th. The train to consist of dining, baggage car and drawing room Pullman sleepers through to Buffalo without change. The route of travel will be via Seaboard to Richmond, passing through Savannah, Columbia, Camden and Raleigh; R. F. & P. to Washington, and Penn. R. R. Washington to Buffalo. Only seventy-five passengers are required to secure this special train service.

Round-trip rates to Buffalo and return from Gainesville, $34.95.

Passengers from Miami and Key West will re-purchase at Jacksonville.

Through Pullman sleepers for Buffalo will positively leave Tampa at 8 p. m. July 8th and Jacksonville 9 a. m., July 9th for the Elks and their friends. Secure your Pullman sleeping car space now.

Tickets on sale at rates named for all trains July 8th, 9th and 10th, but in order to reach Buffalo for the opening session ask for sleeping car reservation on the Florida Elks' Special.

A day in Washington sight-seeing and visiting the government buildings has been arranged.

Stop-overs of ten days, within final limit on all extended tickets, has been arranged on the return trip at Philadelphia, Baltimore and Washington.

A trip to New York can be taken in conveniently on side-trip rates of $4 Philadelphia to New York and return, good six days.

The Florida delegation will be personally conducted by James F. Taylor, traveling passenger agent of the Seaboard, Tampa, Fla.

For sleeper reservations or other information write S. C. Boylston, Jr., passenger agent, or A. O. MacDonell, assistant general passenger agent, Jacksonville, Fla.

A GOOD DONATION.

Firm of New York Clothiers Send Check to Aid Hospital.

Mrs. J. F. McKinstry of the Woman's Hospital Aid Association is in receipt of a check for $10 from the Herman-Kratzstine Company, clothiers, New York, to be used as aid to the Gainesville and Alachua county hospital movement.

The check is accompanied by a nice letter, which is appreciated by the good ladies of the association, who duly acknowledged receipt.

International Cotton Congress.

Manchester, England, June 8.—The International Cotton congress today discussed the question of speculation in cotton. Baron Corloni of Italy protested against the practice of buying cotton for delivery at distant dates, alleging that it gave gamblers an opportunity to bring disaster to the trade. Continental nations, he pointed out, conducted their business without recourse to this practice. Other delegates agreed with the baron, but the congress was not unanimous on the subject.

Woman Dies In Hospital.

Macon, Ga., June 8.—Mrs. Dalton Ogletree, the woman whose twin babies were found in the river a couple of days ago, and who was soon afterward carried to the city hospital, died and her body was carried to Adel, Ga., for interment. Her husband and a sister reside there. A number of her relatives are buried near there, at Cecil. The report here is that the woman and her husband had ceased to live together, and she came to Macon.

Handsome Shaft Unveiled.

Birmingham, Ala., June 8.—Camp Bedford Forrest, U. C. V., of Woodlawn, unveiled in Woodlawn cemetery a handsome granite shaft erected to the memory of the late Confederate dead. The Daughters of Woodlawn largely assisted in raising the funds for the monument. The address of the day was eloquently delivered by Congressman J. Thomas Heflin.

Acute Rheumatism.

Deep tearing or wrenching pains, occasioned by getting wet through, worse when at rest, or on first moving the limbs, and in cold or damp weather, is cured quickly by Ballard's Snow Liniment. NOW IS THE TIME TO PAINT.

Important Memorandum.—The paint is the most important factor in painting. A job complete, done by a good painter, with the best quality of paint, costing say $60.00 ($40.00 for paint, $20.00 painter), will last five years. The same paint applied by a dauber ($30.00 paint, $20.00 painter, will last only two years. That the "per-year-cost" of the good painter's job is $12.00—the poor painter's, $30.00.

Above all, USE GOOD PAINT!

The oil! linseed oil! Just pure linseed is the "life"—the one great requisite of good paint for which there is no substitute—and the *sure* way to get the pure, fresh linseed oil is to buy the oil and

Kinloch HOUSE PAINT

separately. *For every gallon of Kinloch Paint buy one gallon of linseed oil.* This makes two gallons of paint, ready for use. You then *know* that the paint you're putting on your house is alive—"the genuine oil is in it," and paint is not paint unless it contains 50% of really pure oil. We will further explain the virtues of Kinloch Paint if you will call and see us.

Wisconsin City Flooded.

Fond du Lac, W[illegible], June 8.—Fond du Lac city and county have been swept by a flood, entailing a loss of $150,000. Buildings were torn from their foundations, and shattered, the fragments passing out into the lake.

A Bottomless Pit.

There is a bottomless pit in the mountains of Hualalai, back of Kailua, in the Hawaiian Islands. It is about four feet in diameter. The pit is peculiar from the fact that it sucks in the air with remarkable force. Pieces of paper placed over the mouth do not float gently down, but are suddenly drawn in and disappear with startling rapidity. The air rushing into the pit can be distinctly felt by people standing on the edge. Strange sounds are heard also. Every night the inhabitants of the locality distinctly hear a noise similar to the blowing of a deep steamship whistle. The noise is heard for about five seconds and then subsides for a space of about ten minutes and then resumes for another five seconds.

Addresses In Persian.

The addresses in Persian upon letters which go through the postoffice at Calcutta are often quaint and puzzling. An Indian paper recently translated one as follows: "If the Almighty pleases—Let this envelope, having arrived at the city of Calcutta, in the neighborhood of Calootolah, at the counting house of Sirajodeen and Hahdad, merchants, be offered to and read by the happy light of my eyes, of virtuous manners and belover of the heart—Meean Shaikh Inayut Ally, may his life be long. Written on the tenth of the blessed Rumzan, Saturday, in the year 1266 of the Hegira of our Prophet, and dispatched at Bearing."

The law prohibiting baseball and fishing on Sunday, it is stated, does not go into effect until July 1st, 1905.

The Russian leader, General Linevitch, is confident of victory in Manchuria. He possibly means victory or death.

Hon. Geo. M. Nolan was nominated for mayor of Jacksonville in the second primary Wednesday. Nolan had 1,203 votes, Toomer 1,166. Nolan's majority 37.

Pensacola has elected Charles H. Bliss mayor of that city by a large majority, the vote being the largest ever polled in that city. The election has been the "muddiest" in the history of the city.

The Pennsylvania Railroad, not to be outdone by the Lake Shore, has put on a train between New York and Chicago that makes the run in sixteen hours—three hours less than the Twentieth Century Limited.

The Pensacola Daily News is slightly in error regarding the Sunday amusements law passed by the Legislature. It does not include bathing on Sunday. Cleanliness is next to Godliness, and a law that would prevent bathing would be of no avail.

Gaynor and Greene, who have been making considerable trouble over being extradited from Canada, are now in the hands of United States officers and will have to stand trial for their swindling operations on the government work at Savannah.

Chicago is bound to keep up with the times, although located on Lake Michigan, instead of the ocean. A few days ago they got up a tidal wave that eclipsed anything ever seen in fresh water, the wave rolling up about five feet high and doing much damage to property along the water front.

The recent wind and rain storms that have swept over portions of Wisconsin and Michigan were the most severe for many years. The damage in Western Michigan will amount to $500,000. At Lansing, Michigan, on Tuesday, 4.9 inches of rain fell. In the eastern portion many buildings were blown down.

The industrial edition of The Pensacola Daily News, issued Tuesday, contains eight pages, printed on high-grade enamel book paper, well illustrated, and contains many facts and figures regarding the progress of that hustling commercial center. As a shipping point Pensacola is one of the leaders of the South.

The North American of Philadelphia deserves credit for much of the victory recently scored against the "ring" in that city whose connection with the gas steal proved one of the most sensational events in the history of the Quaker City. The North American followed the exposure of the plans of the company seeking the city lease with pledges of $5,000,000 toward a syndicate to stop the steal and helped in the fight until Mayor Weaver won. The exposure of the North American has had a tendency to boom its subscription in that city.

THE BUCKMAN BILL AND ITS BOARD OF CONTROL.

Dame Rumor has it that several members of the recently adjourned Legislature of Florida who took an active part in the passage of the now notorious Buckman bill, if not already slated for membership on the Board of Control provided for by said bill, are at least active aspirants for such positions. This board, together with the State Board of Education, has the vitally important and highly responsible duty to perform of selecting the sites for the two institutions of learning provided for by the bill, besides various other continuing official duties.

Under the interpretation of the terms "office" and "officer" by our supreme court in the case of State ex. rel. Clyatt vs. Hocker, judge, 39 Fla., 477, this board of control is indisputably a civil office and the members thereof are civil officers.

Section 5 of Article III of our Constitution provides as follows:

"No senator or member of the House of Representatives shall, during the time for which he was elected, be appointed or elected to any civil office under the Constitution of this State, that has been created, or the emoluments whereof shall have been increased, during such time."

This provision of our organic law would seem to make it clear that no member of this recent Legislature is eligible for membership on such board of control; and we have too much confidence in the devotion of our present Governor to his duty under the Constitution and laws to fear that he will violate either in the discharge of the grave duty to appoint an absolutely fair and unbiased set of men on such board, regardless of the previously prepared slates that may be smashed thereby.

TEDDY NOT WANTED.

According to a report from Washington, it is evident that President Roosevelt will not be asked to assist in the peace negotiations in the Far East. When Admiral Enquist was notified that he could only remain at Manila twenty-four hours, it is said that the Bear howled and declared that the President of the United States was not the man. He has aroused the ire of all the Russian navy that is afloat, with the sub-marine yet to hear from.

And for complying with the neutrality law he is the subject of a bitter attack from the Czar's official organ. But Russian attacks are not very dangerous, and if our pugnacious President can help make terms of peace, perhaps he can do something to create a row. The fact is, Teddy would just as soon fight as to make peace.

FAVORS GAINESVILLE.

The following from The Levy Times-Democrat, published at Bronson, expresses the sentiment of Editor Farmer and the school board of Levy county. Brother Farmer is a gentleman of excellent principles and his opinion is regarded of much worth:

"It is be hoped that the State Board of Education will rise above sectionalism and will locate the University of Florida at Gainesville, the best, cleanest and most centrally located school town in Florida. Recognizing Gainesville's prior claims to this institution the Levy County School Board and Board of County Commissioners, in session Monday, officially signed a petition in behalf of Gainesville. Let the college be located at Gainesville."

The remnants of the Russian navy seem to be scattered over the China sea and other waters of the East, carrying on piratical warfare on merchantmen that are caught on the high seas.

The Ocala Star is trying to convince the people of Marion county that they need a new court house. Hope he will be successful.

A farmer who has been at Santa Rosa, Cal., for several years, has written to a gentleman in this city inquiring about the prices of farm lands in Florida, and also desiring to know something in regard to crops and the prices they bring. There is plenty of land suitable for farming purposes for sale here, but there is no one who makes an effort to boom such lands. A little judicious advertising might bring many people from the North and Northwest to Florida.

The State of Mississippi has declined the offer of Andrew Carnegie of $25,000 for a library for the State University, provided the State would appropriate a like sum. Governor Vardaman says that the State is abundantly able to support the University with any equipment it needed. The Carnegie donations have strings to them that are sometimes rejected, and the State of Mississippi evidently desires to be free to do as they see fit in regard to libraries.

The Buried Bell.

Near the little village of Raleigh, in England, there is a hollow, said to have been caused by an earthquake centuries ago, which is said to have swallowed up a whole village, including the church. To this place the villagers of Raleigh were in the habit of repairing every Christmas morning, putting their ears to the ground and listening, as they asserted, to the church bell ringing beneath them! What was really heard was the bell of a neighboring church, the sound being borne along the surface of the ground. This custom was in existence, we believe, as late as half a century ago.—London Tit-Bits.

Don't Coddle Rubber Plants.

Of all the freak remedies that are sometimes proposed for sick house plants those which are recommended for rubber plants are the worst. They run all the way from applying beefsteak and castor oil to the roots to coating the leaves with milk. Give your plants a properly prepared soil and sufficient light and keep the leaves free from dust and scale, and you will find no necessity for such nostrums as these. Make it a practice to go over the plants daily with a soft cloth and remove any indication of dust, scale or insects.—Country Life In America.

The mayor of Tampa refuses to sign the bonds for the city's purchase of the Tampa Bay Hotel. He is probably afraid he will have to foot the bills.

The South Florida Mid-Winter Fair has opened up offices at the Tampa Bay Hotel, and will commence to make arrangements for features for the event.

Up to Tuesday night 29 solid cars of Florida pineapples had been shipped to the market through the Indian River and Lake Worth Pineapple Association.

Two Tampa barbers got into a row and one cut the other with a razor. But the report says the gash was not very bad, "fifteen inches long and about an inch deep."

Bob Ganos, a colored field hand, working for Capt. Vason near Tallahassee, robbed the house during the absence of the family, securing $350 in cash and other valuables.

Joseph W. Sanders, charged with embezzling money and valuables from M. E. Gruber of West Palm Beach, is now in Dade county jail. He was arrested at Irwinsville, Ga.

"Doc" Peterson of Chipley, colored, shot his girl Raidebelle Jackson, the bullet breaking her left arm. The affair took place Sunday night and Peterson made good his escape.

The two swan ordered by the Lake Lucerne Improvement Company of Orlando are now safely in the waters of that charming lake. They are very large and handsome specimens.

The annual excursion and picnic of the Masonic fraternity of St. Augustine to Daytona, will be held June 22. A special train will be run and a program will be arranged to be carried out at Daytona.

The Knights of Pythias at Palatka are preparing for a grand time at their anniversary celebration on June 22d. Addresses will be made, music furnished and a social hop given. Refreshments will be served during the evening and the occasion will be one of note in the history of the order.

Contractor Commits Suicide.

Ocilla, Ga., June 8.—F. B. Paulk, a prominent contractor of this place, committed suicide here by taking laudanum. No cause can be ascribed to the deed. It is thought that he committed the act in a moment of mental abstraction. Mr. Paulk was a member of one of the most prominent families of this county.

Many Deer Killed by Wolves.

Marquette, Mich., June 8.—Bark peelers in the employ of the Tyoga Lumber company, which is operating camps near Deerton, 30 miles east of here, report that during the past two weeks they have found the bones and carcases of 84 deer. There is no question that the animals were killed by wolves during the past winter.

Bowen to Be Removed.

Washington, June 8.—The Bowen-Loomis investigation is practically ended. Loomis is to be exonerated of everything, aside perhaps from some slight indiscretions while Bowen will doubtless terminate his diplomatic career. His furnishing the press with information against Loomis is the most serious charge.

Colombia's Agent Arrives.

New York, June 8.—Enrique Cortes, former minister of foreign relations of Colombia and now confidential agent of his government on the mission to Washington, arrived here today. He will confer with President Roosevelt regarding the re-establishment of friendly relations between Colombia and the United States.

Dying of Famine

Is, in its torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a long torture, both to victim and friends. "When I had consumption in its first stage," writes Wm. Myers of Cearfoss, Md., "after trying different medicines and a good doctor, in vain, I at last took Dr. King's New Discovery, which quickly and perfectly cured me." Prompt relief and sure cure for coughs, colds, sore throat, bronchitis, etc. Positively prevents pneumonia. Guaranteed at all drug stores. Price 50c and $1 a bottle. Trial bottle free.

Pearls Found In Cocoanuts.

"Pearls are not found in oysters alone. Sometimes," said a lapidary, "they are found in cocoanuts. I once cut a cocoanut pearl. It was the size of a pea, and its quality was good. It resembled an oyster pearl, only it was a little duller. Cocoanut pearls are found in the heart of the nut. It is thought that they are formed by the hardening of the nut's flesh. They are, so to speak, a kind of crystallized tumor or wart. These pearls are rare. They are rarer than oyster pearls. They are also cheaper than oyster pearls, being less hard and less transparent."—Philadelphia Bulletin.

The Bells of Davos.

The first thing that strikes the stranger in Davos, Switzerland, and strikes him unpleasantly is the bells. Not only does every cow, goat and sheep wear its bell, but when they are all shut up for the winter and we hope for a little rest then comes the infernal, eternal din from every cart, carriage, sleigh, omnibus and all other kinds of vehicle which ply for hire or otherwise. No doubt they become a necessity on the silent highways as winter progresses, but that does not render them one bit more palatable.

Will Cure Consumption.

A. A. Herren, Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." You never heard of anyone using Foley's Honey and Tar and not being satisfied. J. W. McCollum & Co.

WILLS OF LUNATICS.

The Queer Bequests That Are Made by Insane Persons.

One of the manias which are evidenced by the insane is a desire to make a will. Of course these documents are waste paper as far as their legality is concerned, but the attendants and doctors treat these documents with the greatest respect in order to humor the demented creatures.

Some of these wills would be amusing if it were not for the sad condition of mind of which they are the outcome. One man confined in an asylum left all his money to the mikado of Japan on condition that this dignitary should visit the grave of the testator once each year and plant chrysanthemums upon it. The remainder of the estate was to be handed over to an imaginary charity called the Brotherly Love and Bounty society.

Another lunatic in a Parisian asylum left a will devising the whole of his estate to the possessors of Roman noses residing in and near Paris. The reason for this was that he had rather a handsome nose of this shape and was constantly admiring it. A similar bequest was that of a patient who left his property to an attendant because he possessed one of the ugliest nasal organs the testator had ever seen.

One man, who was afflicted with the mania that he was sane, but confined in the asylum unjustly, devised a will leaving his money to the commissioners of lunacy to enable them to engage a large staff of men for the purpose of visiting asylums and ascertaining if any were confined in them without reason.—New York Times.

That Tired Feeling.

If you are languid, depressed, incapable for work, it indicates that your liver is out of order. Herbine will assist nature to throw off headaches, rheumatism and ailments akin to nervousness and restore the energies and vitality of sound and perfect health. J. J. Hubbard, Temple, Texas, writes: "I have used Herbine for the past two years. It has done me more good than all the doctors. It is the best medicine ever made for chills and fever." 50c. Sold by W. M. Johnson.

Deferred.

"What," asked the youth, "was the happiest moment of your life?"

"The happiest moment of my life," answered the sage of Sageville, "is yet to come."

"When do you expect it?" queried the inquisitive youngster.

"When people cease to ask fool questions," replied the philosophy dispenser.—Chicago News.

Right Now.

After all, what's the use? No matter how hard we may fight, we lose in the end; no matter how much we may seemingly conquer, in the end we are wretchedly beaten; no matter how much we are in the public eye, within two weeks after our death we are too dead to be talked about. There is only one time in the world, and that is now.—Lawrence (Kan.) World.

No Secret About It.

It is no secret that for cuts, burns, ulcers, fever sores, sore eyes, boils, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory of Hope, Tex. 25c at all drug stores.

CABINET MEMBER IN ATLANTA.

Secretary of Treasury Shaw Visits Gate City of the South.

Atlanta, June 8.—Colonel Robert J. Lowry, president of the Lowry National bank, is awaiting with much interest the arrival of his friend, Secretary of the Treasury Shaw. The colonel was advised that Secretary Shaw would arrive in Atlanta Wednesday morning about 10 o'clock, coming here over the Southern railway. Colonel Lowry said that he did not know how long Secretary Shaw would be his guest, but he hoped that the visit would be a long one. Colonel Lowry first met Secretary Shaw when in 1897 and 1898 he became such a prominent figure in the public eye. Since that time the acquaintance has ripened into a mutual bond of friendship.

Not knowing the secretary's plans, Colonel Lowry was unable to make any arrangements for his entertainment in the way of receptions or anything of that sort.

Fruit Growers in Session.

Adairsville, Ga., June 8.—The fruit growers of the north section of the state met here about 200 strong from the east and west of the state, north of Atlanta. Colonel L. A. Dean of Rome was elected chairman, and Mr. G. R. Casey secretary. The day was spent in discussion of ways and means of selling and shipping the crop. The idea of a central committee to sell the crop was, on being put by the chairman, lost. Colonel M. L. Johnson made a motion, which was adopted, to appoint a committee of five to see to the proper icing of cars at icing stations, and to inspect the fruit on arrival at six or seven of the principal markets.

Master Plumbers in Session.

Atlanta, June 8.—The first sessions of the National Association of Master Plumbers were held at the Grand Opera House Tuesday. If the other days of the convention go off with the same harmony and good spirit as the first day, the twenty-third convention will go on record as the most harmonious in the history of the association. Disagreement there was, and plenty of it, in much business that came up for consideration, but it was of the kind that tends to help rather than hinder the delegates in their deliberations.

Carnegie's Money Not Wanted.

Jackson, Miss., June 8.—Governor James K. Vardaman made the statement that the board of trustees of the State university had turned down the offer of Mr. Andrew Carnegie to give the trustees $25,000 provided a like amount was put up by the state for the purpose of building and equipping a library at the State university. Governor Vardaman stated to the Associated Press that he thought the state of Mississippi was in position to supply the university with any equipment that was needed.

Killed Companion With Bat.

Americus, Ga., June 8.—Grady Tarver, a youth of 13 or 14 years, was indicted for murder by the grand judy and placed in jail. Several months ago young Tarver during the progress of a ball game killed a youthful companion, Augustus Oliver, with a baseball bat in a schoolboy scrap. Tarver has since been out on bond, and the finding of the indictment was a surprise to many citizens. He will be tried for murder this week. Young Oliver was the son of former Policeman John L. Oliver.

Gets a Thirty-Five Year Sentence.

Bridgeport, Conn., June 8.—Thirty-five years' imprisonment was the sentence imposed by Judge Reed on Leonard R. Diamond, who pleaded guilty to burglary and criminal assault. Diamond was arrested after a house in Coscob, occupied by two women, one aged 72 years and the other 76, had been entered by a burglar and one of the women assaulted. It was said in court that the woman had lost the sight of one eye as a result of the assault.

Diver's Neck Is Broken.

Moultrie, Ga., June 8.—Harvey Godwin, the 17-year-old son of Mrs. M. E. Godwin of Moultrie, was accidentally killed while in bathing in Bridge creek, near Chastain. He, with a number of boys, was running and jumping into the water on their heads. As Godwin was making the leap, he slipped and fell too near the edge; the water being very shallow here, his neck was broken and he died instantly.

Big Find of Phosphate Rock.

San Francisco, June 8.—A mineral discovery has been made in San Diego county that may be worth millions to California. Phosphate rock has been picked up as float near Escondido, and samples have been forwarded to the state mining bureau for examination. The value of phosphate rock is that it contains fertilizing material that can be used for enriching the soil. If the rock is as rich as is supposed and the deposit is large, the result of this discovery may be to add great values to the mineral output of this state.

200 Desert From Cruiser Colorado.

Boston, June 8.—Wholesale desertions are being made from the cruiser Colorado, in port here, because of alleged harsh treatment on the part of the officers of the ship. Six of the men slipped overboard from the cruiser with life-preservers and swam ashore. Probably no ship in the United States navy ever anchored at this port has had so many desertions, and it is estimated that the number has reached more than 200.

A Thousand Dollars' Worth of Good.

"I have been afflicted with kidney and bladder trouble for years, passing gravel or stones with excruciating pain," says A. H. Thurnes, a well known coal operator of Buffalo, O. "I got no relief from medicine until I began taking Foley's Kidney Cure; then the result was surprising. A few doses started the brick-dust-like substance and now I have no pain across my kidneys and I feel like a new man. It has done me $1.000 worth of good." Foley's Kidney Cure will cure every form of kidney or bladder disease. J. W. McCollum & Co.

A Hanging Bridge.

When the Denver and Rio Grande prepared to build through the Rockies engineers said the canyon of the Arkansas could never be penetrated its entire length. There was one spot in this awe inspiring chasm where there was not room for a roadbed on either side of the stream. The walls of the canyon came down to the swift current of the Arkansas without foothold for a man on either side. But an engineer suggested a hanging bridge suspended between the walls of the canyon. The bridge was built with supports imbedded in the solid rock, and across it the heavy transcontinental trains flit daily, with nothing but the slender ironwork between the river and the top of the canyon, 2,600 feet above. Great iron braces, which look almost spider-like in the vastness of the canyon, have been thrown across the gorge, being anchored securely in the sheer sides. Huge cables depend from these braces, holding a long iron bridge, which extends not across but parallel with the course of the river.—New York Tribune.

The City of Is.

You might exhaust yourself looking in atlas and gazetteer for the city of Is, because it is purely legendary. Here is a brief statement of the legend: "The magnificent city of Is was situated on the coast of Brittany where now is the bay of Douarnenez. It was built below the level of the sea and surrounded by massive walls. Here in the fifth century was the court of the pious King Gradlon and of his wicked daughter, Dahut, who had a pleasant habit of throwing her suitors into a well when their society became tiresome. One of her favorites asked her to obtain for him the silver key which fastened the sluice gates in the city wall. Dahut accordingly stole the key from her father's neck while he slept, the lover unlocked the gates and the sea rushed in and overwhelmed the city and its inhabitants, including the princess. Only the king escaped. The Breton peasants say that the spirits of the drowned still haunt the spot, and the bells of the submerged city are often heard ringing at low tide."

Cured of Bright's Disease.

Geo. A. Sherman, Lisbon Red Mills, Lawrence county, N. Y., writes: "I had kidney disease for many years and had been treated by physicians for twelve years; had taken a well known kidney medicine and other remedies that were recommended but got no relief until I began using Foley's Kidney Cure. The first half bottle relieved me and four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure I had to make water about every fifteen minutes, day and night, and passed a brick-dust substance, and sometimes a slimy substance. I believe I would have died if I had not taken Foley's Kidney Cure." J. W. McCollum & Co.

CURIOUS OATHS.

944 Ways of Swearing to the Truth of One's Statements.

When a Chinaman swears to tell the truth he kneels down, and a china saucer is given to him. The following oath is then administered: "You shall tell the truth and the whole truth. The saucer is cracked, and if you do not tell the truth your soul will be cracked like the saucer," when he breaks the saucer. Other symbolic variations of the Chinese oath are the extinguishing of a candle or cutting off of a cock's head, the light of the candle representing the witness' soul and the fate of the cock symbolizing the fate of a perjurer.

In certain parts of India tigers' and lizards' skins take the place of the Bible of Christian countries, and the penalty of breaking the oath is that in one case the witness will become the prey of a tiger and in the other that his body will be covered with scales like a lizard.

In Norwegian courts of law the prelude to the oath proper is a long homily on the sanctity of the oath and the terrible consequences of not keeping it. When the witness is duly crushed by the sense of his fearful responsibility the oath is administered while he holds aloft his thumb and fore and middle fingers as an emblem of the trinity.

In an Italian court the witness, with his right hand resting on an open Bible, declares, "I will swear to tell the truth, the whole truth and nothing but the truth." The Mohammedan takes the oath with his forehead reverently resting on the open Koran. He takes his "Bible" in his hand and, stooping low, as if in the presence of a higher power, slowly bows his head until it touches the book which to him is inspired.

In certain parts of Spain the witness when taking an oath crosses the thumb of one hand over the forefinger of the other and, kissing this symbolic, if primitive, cross, says, "By this cross I swear to tell the truth."

Huge Task.

It was a huge task to undertake the cure of such a bad case of kidney disease as that of C. F. Collier of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so far gone, I could not sit on a chair without a cushion; and suffered from dreadful backache, headache, and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach." Guaranteed by all druggists; price 50c.

Distances at Sea.

That man was laughed at who on his first voyage said that the ocean did not look so large as he supposed it would, but he was not alone in experiencing disappointment. The horizon at sea gives no idea of the limitless water beyond. A sea captain declares that the average landsman cannot see more than ten miles from the ship in any direction, and it would have to be a mountain or some stationary object for him to be able to distinguish it. The masts of a ship are said to be visible to the naked eye not more than five miles.

Jenny Lind as a Child.

Jenny Lind as a child of three years was the lark of her parents' house. As a girl of nine she attracted the attention of all lovers of music and entered the Stockholm conservatory as a pupil. Her continuous studies at so tender an age caused the sudden loss of her voice, and for four full years she pursued her theoretical and technical studies, when suddenly the full sweet sounds came back, to the delight, as every one knows, of thousands for many years.

He Had.

Woman of the House (handing him a plate of cold scraps)—You look like a man who has seen better days. Fondry Gretts—Yes'm, thankee, I have. There was a time, ma'am, w'en I would have blushed to hand such a layout as this to a dog.—Chicago Tribune.

Reasonable.

Church Worker—Would you assist us, good sir, to send a missionary to the cannibals? Mr. Gotrox—Not much! I'm vegetarian. But I'll assist you to send them some easily digested cereal!—Puck.

Lived on Water.

The Tramp—I once lived on water, lady, for six months. The Lady—You don't look like it. How did you manage it? The Tramp—I was a sailor.

Great and formidable among men is the power of laughter. No man is proof against its spell.—Leopardi.

A Bad Scare.

WON FROM DISASTER

SUCCESS AT TIMES FOLLOWS SEEMING ILL LUCK.

How the Baku Petroleum Deposits Were Discovered—A Dying Seal Disclosed Cape Nome's Gold Secret. The Origin of Tinted Paper.

The Baku petroleum deposits, which have yielded millions of pounds' worth of fine oil, are situated in Russian Caucasus.

Years ago a number of cattle were placed on several tracts of land well covered with herbage. The animals, however, refused to feed at first, but later, in their hunger, they ate up the grass ravenously. All of them were taken ill, and a number died.

The cause of their death puzzled the owner for some time. In the long run he discovered, with the assistance of an Englishman, that below the meadows were rich oil springs which caused the grass to be poisoned with paraffin. The loss of his cattle brought a fortune.

A summer or two back a sea wall on the Suffolk coast was blown down during a strong gale, and when the tide rose many acres of low lying land were flooded by the sea. The farmers who rented the land were in despair, and in order to save their crops they started draining the water off.

Two days later the water sodden meadows were a sight wonderful to behold. They were one thick carpet of fine mackerel! A big school of the fish had swept in through the breach in the embankment and been carried to the fields by the incoming sea.

The farmers hired scores of carts to collect the mackerel, and within twenty-four hours the fish had been packed into boxes and were en route to Billingsgate, where they were sold for over £600.

Starving, ill clad and bootless, Robert Hyams, a homeless Jew, wandered to the top of a lonely hill on the Yorkshire moors. There was a strong gale blowing from the east, and to protect himself from the cold blast he entered a big shed of wood and gorse on the summit which was used to store fodder for the sheep.

Stepping through the door, which opened to the eastward, he was astonished to find inside over sixty wild ducks, half stunned, but quacking violently. He slammed the door to and started catching the birds and wringing their necks.

The shed lay right in the flight lines of the myriads of wild ducks that come to Britain from the north, and, flying low in their hundreds, some of them had entered the door of the shed, which had been left open by the shepherds, and stunned themselves on the rear wall.

Hyams sold the lucky haul for a sum exceeding £8, and with this he was able to clothe himself respectably and thus find employment.

On the beach which fringes the precipices below Cape Nome there is now a prosperous city peopled by 40,000 miners, but at one time, and not so very long ago, the spot was uninhabited. The discovery of the gold in the district and its ultimate prosperity was entirely due to a seal.

Two American hunters had wounded the strange creature, and it led them a pretty dance across the ice and into an unknown bay, where the seal was killed after badly wounding one of the hunters.

In its death struggles the seal flung up the ground, and the hunters, to their agreeable surprise, found themselves on a golden strand—the richest one in the world.

The death of a mule brought great wealth to Frederick Butler, a Klondiker, who took part in the memorable "rush" to the gold fields of Yukon. He left his mule standing one day on a plot of land far away from the "claims," and another miner who had a grudge against his fellow digger shot the animal in the neck with his revolver.

The mule fell and in its agony kicked up the ground with its hoofs. When its owner returned he found several "pebbles" of strange weight and shape lying around the dead animal. He examined the supposed pebbles and they proved to be nuggets of virgin gold. The dying mule had struck one of the richest veins in Klondike.

A similar case of gold being discovered by an animal occurred in Scotland many years ago. A dog, badly wounded by a shot from a gamekeeper's gun, scratched up some gold on ground which was afterward known as the Dunrobin gold mine, near Golspie. Over £20,000 worth of the precious metal was washed out of the mine by the owner of the wounded dog.

The Potosi silver mines in Spain were also discovered by a wounded animal. It is said that the famous diamond mines at Kimberley were first brought to a wide awake Boer by a dog he had shot.

Similarly the value of some hundreds of acres was dug out of a portion of land belonging to a Mr. Ireton of Cleveland. A fowl chased [illegible] up a nugget of gold with its claws as it fled from its pursuer.

Subsequently it transpired that where the bird had been was a dried up stream and contained gold dust and small nuggets in large quantities.

Ramsgate harbor was once flooded with a mighty shoal of mullet, and when the dock gates were opened to allow a ship to pass into the inner basin the fish followed, and the basin became thick with them.

When the tide went down the authorities had the dock sluices opened and the water drained off. Over twenty cart loads of mullet of two pounds weight and upward were taken away from the floor of the basin, and their sale brought to the coffers of the Ramsgate council nearly £500.

A piece of blue dropped by accident into a vat of pulp was responsible for the production of blue tinted paper, and to this slight disaster the foundation of a great industry is to be traced.

The wife of William East, a poor paper maker, dropped a blue bag into one of her husband's pulp vats, and as a result the pulp assumed a blue tint.

East considered the paper to be a grave pecuniary loss, but when he sent it up to London it found a ready market. Indeed, it became so popular that East was asked to supply more. He did and eventually made a great fortune out of his "blue bag" paper.

A chemist of Nuremberg was pouring out some aquafortis from a bottle when a few drops fell upon a pair of gold rimmed spectacles, which he had recently purchased.

"That's a catastrophe," he called to his wife. "I've upset some aquafortis on my new specs."

"Has it spoilt them?" was the reply.

"Well," said the chemist, "the glass is corroded where the fluid touched it."

Then an idea struck him, and, getting a piece of window glass, he endeavored to etch thereon. He succeeded after many failures. By drawing designs on the glass with varnish and applying aquafortis he made them appear as on a gray background. For many years he kept his secret close and made a small fortune out of his designed glass. —Pearson's London Weekly.

THE PRICE OF TORTURE.

Eighteenth Century Punishments and the Costs Thereof.

Among the monuments of superstition which exist to this day, the traveler sees the "witch towers," the torture chambers and the collections of instruments of torture in various towns on the continent—notably at Nuremberg, Ratisbon, Munich and The Hague. But perhaps nothing brings the system more vividly before us than the executioner's tariffs still preserved. Four of these may be seen in the library of Cornell university and among them especially that issued by the archbishop elector of Cologne in 1757. On four printed folio pages, it enumerates in fifty-five paragraphs every sort of hideous cruelty which an executioner could commit upon a prisoner, with the sum allowed him for each, and for the instruments therein required. Typical examples from this tariff are the following:

	Thalers.	Ulb.
1. For tearing asunder with four horses	5	26
2. For quartering	4	
5. For beheading and burning	5	26
7. For strangling and burning	4	
8. For heaping the pile of wood and kindling		12
9. For burning alive	4	
11. For breaking a man alive on the wheel	4	
13. For setting up the wheel with the body twisted in it	2	52
19. For cutting off a hand or sundry fingers and for beheading—altogether	3	26
20. For burning with a hot iron	1	26
22. For beheading and placing the head upon a pike	2	26
24. For beheading, twisting the body in the wheel and placing the head upon a pike—altogether	5	
28. For tearing a criminal before his execution with redhot pinchers—each tearing of the flesh		26
31. For nailing a tongue or hand to the gallows	1	26
42. For the first grade of torture	1	26
44. For the second grade of torture, including setting the limbs afterward, with salve for same	2	26

and so on through fifty-five items and specifications.—Andrew D. White in Atlantic.

The Enemies of Success.

Bright, cheerful hopeful thoughts and a strong belief in one's own ability to accomplish [illegible] are friends that will insure success. The ambitious person should learn as early in life as possible to pick out the friends and enemies of success, and in many cases it will be found that the greatest enemy resides within himself. Morbid thoughts, for example, are infinitely greater hindrances to success than opposition from outside, and no health, no beauty, no harmony, no real success can exist in the atmosphere of abnormal melancholy or morbid ideas. Overcome the enemies to success within yourself and you will have done much toward reaching the goal of your ambition.—London Answers.

True diplomacy is to get all you can with as much courtesy as you can.—Rev. Boyd Carpenter.

IMPORTANCE OF CARBON.

Without It or Its Equivalent We Could Have No Arc Light.

The electric arc light as now so commonly used is produced by the passage of a powerful electric current between the slightly separated ends of a pair of carbon rods, or carbons, about twelve inches long and from three-eighths to one-half inch in diameter, placed vertically end to end in the lamp. The lamp mechanism is so constructed that when no current is passing the upper carbon, which is always made the positive one, rests upon the lower by the action of gravity, but as soon as the electric current is established the carbons are automatically separated about an eighth of an inch, thus forming a gap of high resistance in the electric circuit, across which the current is forced, resulting in the production of intense heat. The ends of the carbons are quickly heated to brilliant incandescence, and by the burning action of the air are maintained in the form of blunt points. As the carbons burn away, the lamp mechanism lowers the upper one downward just fast enough to maintain the proper separation.

The carbons are not heated equally, the upper or positive one being much the hotter. A small cup shaped cavity or "crater," ordinarily less than an eighth of an inch in diameter, is formed in its end, the glowing concave surface of which emits the greater part of the total light. In lights of the usual size something like half a horsepower of energy is concentrated in this little crater, and its temperature is limited only by the vaporization of the carbon. Carbon being the most refractory substance known, the temperature of the crater is the highest yet produced artificially and ranks next to that of the sun. It is fortunate that nature has provided us with such a substance as carbon, combining, as it does, the highest resistance to heat with the necessary electrical conductivity. Without carbon or an equivalent—and none is known—we could have no arc light.—Charles F. Brush in Atlantic.

STOP IT.

Boasting of what you can do instead of doing it.

Thinking that life is a grind and not worth living.

Exaggerating and making mountains out of molehills.

Talking continually about yourself and your affairs.

Saying unkind things about acquaintances and friends.

Thinking that all the good chances and opportunities are gone by.

Thinking of yourself to the exclusion of everything and every one else.

Speculating as to what you would do in some one else's place and do your best in your own.

Gazing idly into the future and dreaming about it instead of making the most of the present.

Longing for the good things that others have instead of going to work and earning them for yourself.—Success.

A Hurricane.

The terrors of the deep were perhaps never more thrillingly set forth than in the description by a young lady who last year made her first trip abroad. She kept a diary, very much, says the New York Herald, like that of Mark Twain, when for seven days he recorded the fact that he "got up, washed and went to breakfast."

There was one important exception. When she crossed the channel the experience was so trying that she felt impelled to describe it.

"I firmly resolved to stay on deck," she wrote, "although the tempest increased to such a frightful hurricane that it was only with the greatest difficulty that I could hold up my parasol."

A Wonderful Memory.

Hortensius, the Roman orator, could repeat word for word a book he had just read. On one occasion he made a wager with one Sienna and to win it went to an auction, remained all day and in the evening gave a list of all the articles sold, the prices paid for them and the names of the purchasers. The accuracy of his memory was in this case attested by the auctioneer's clerk, who followed the recapitulation with his book and found that in no case had the man of wonderful memory made a single mistake.

Manners.

Manners are of more importance than laws. In a great measure the laws depend on them. The law touches us but here and there and now and then. Manners are what vex or soothe, corrupt or purify, exalt or debase, barbarize or refine us, by a constant, steady, uniform, insensible operation, like that of the air we breathe. They give their whole color to our lives. According to their quality they aid morals, they supply them or they totally destroy them. —Burke.

A Bad Recollection.

First Barber—Whew! That barnstormer must be a bad actor! Second Ditto—Why? First Barber—When I asked him if he wanted an egg shampoo he jumped right out of the chair and made for the door!—Detroit Free Press.

PINKOSON DOING WELL.

Under His Direction a Great Number of Places Have Been Cleaned.

Under the instruction of Marshal Pinkoson the good work of cleaning up premises and placing same in sanitary condition continues to progress. The officer has been successful in having the majority of the places cleaned about the square, and in one instance has had carted away several wagonloads of paper and rubbish, some of which has been laying about the place for months, not only an eyesore to the public but a detriment to health.

Officer Pinkoson requests The Sun to state that he will at once proceed with an inspection of private premises and suggests that tenants lose no time in cleaning up. If found in a filthy or unsanitary condition they will be listed, which will naturally prove a detriment.

It is hoped to have all places clean within the next ten days.
